I would like introduce Shenyang city to you all as one of the best choice for this workshop.

Shenyang is the biggest center city in northeast China. It has within its jurisdiction 9 districts,3 counties,1 city and 5 development zones. Here live more than 40 nationalities such as the Han ,the Man, the Korean,the Hui,the Xibo,the Mongolian and So on. Its total population is 7,369,000 among which town population is 4,884,000.It covers an area of 13,000 km² .

Shenyang has rich science and technology resources. it has 124 independent science and technology research institutes with 48000 scientists and technicians, 2 nation-level knowledge innovation bases, 14 national project technology centers, 8 national key lab and 6 nation-level enterprise center, forming a science and technology system.

For more information about Shenyang, you can access the website as, <http://www.expo2006sy.gov.cn/zgsy-e/index.htm>

<http://www.shenyang.gov.cn/zgsy-e/index.htm>

<http://www.shenyang.gov.cn/>

There are a lot of attractions,

In 2006, the Shenyang-China international horticultural exposition 2006, the web address is <http://www.expo2006sy.gov.cn> .

A northern pearl, Dalian city, is one of the most beautiful city of China.

Dandong, which is one of none air pollution all over the world. <http://www.dandong.gov.cn>

For more attractions please access here,

<http://www.lntour.gov.cn/tour/en/index.htm>

345 United Lab is an open platform for all scientists and technical people all over the world. We are open for all technical and science activities.

If this workshop is hold in Shenyang, our 345 Lab can contact local Universities and research institute like TsingHua Univ. Beijing Univ. China Academy of Sciences, Northeastern Univ. of China, DaLian Science and technology Univ. , and some organizations like China Association of Science and technology. Some of them may like to be the local sponsor.

345 United Lab has partnership with some local hotel which can offer us better deal for room and conference room charge. We also can arrange an luxury conference room in High tech developing zone.

As a government support project, 345 united lab can apply some government funding support for this workshop. They might be some discounted or free facilities, transportations, or something else.

For normally, 5 star hotel is around \$60-70/night, food cost around \$10/day for average. For transportation, we can rent a shuttle for most of attendees, \$300/day. Our company have three Cars for VIP usage.

There are some other costs, like rent a conference in hotel, banquet, printing, media broadcasting etc. It up to how many people will attend.

We are looking forward to hold this workshop in Shenyang.

Sincerely yours,

Yinan Liu
