

University of Maine Electrical and Computer Engineering Alumni

The University of Maine Electrical and Computer Engineering (ECE) Department has graduated about 2500 students in its history of more than 100 years. The following tables and charts provide useful information on our alumni who are alive to date (1500) and their work related information is available (600). The data shows that out of every 4 alumni, one has achieved a high ranking position with his/her company as indicated below.

High Ranking Positions	Number of alumni
Founders/Owners	9
President/Co-Founder/CEO	20
Vice-presidents	18
Engineering Managers	50
Senior Engineers	68

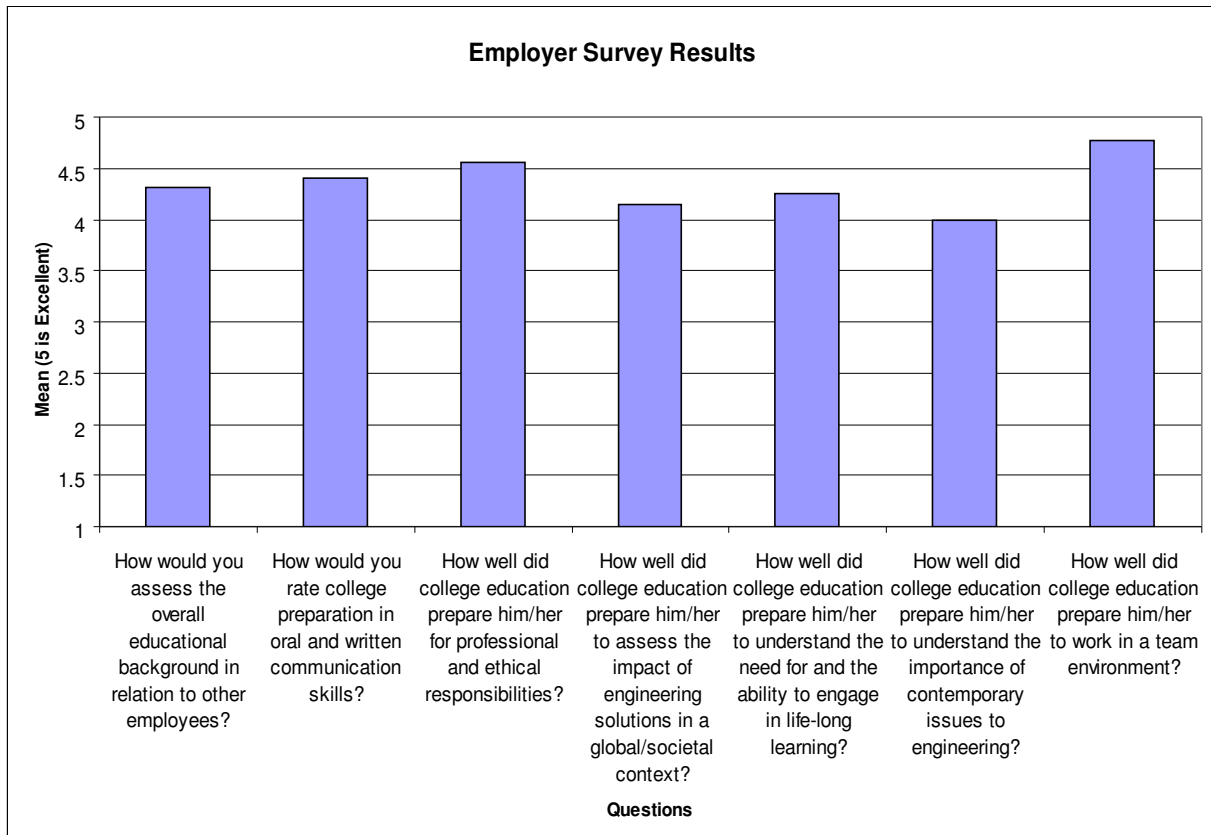

Top Employers	
National Semiconductor Corporation	Bangor Hydro-Electric Company
Central Maine Power Company, Inc.	Boeing Company
International Business Machines	Cisco System, Inc
General Electric Company	Federal Aviation Administration
Raytheon Company, Inc.	Maine Community College System
Portsmouth Naval Shipyard	Massachusetts institute of Technology
AT&T	Newpage Corporation
Bath Iron Works Corporation	Northrop Grumman Corporation
International Paper Company, Inc.	Public Service Company of N.H
Lockheed Martin Corporation	Eastman Kodak Company, Inc
Mitre Corporation	General-Pacific Corporation
Naval Undersea Warfare Center	GTE Corporation
Analog Devices, Inc	Harriman Associates
Enterasys Networks	Hewlett-Packard Company, Inc.
Fairchild Semiconductor	IDEXX Laboratories, Inc.
	Maine Public Service Company

Employers Evaluation of Our Graduates

Each year the Electrical and Computer Engineering Department surveys the employers of its graduate to get feedback on their performance. The following chart provides information from those who responded. Note that these employers have judged our graduates' performance as "very good" to "excellent" in all categories, as indicated in the chart below.

Fundamentals of Engineering Examination

Fundamentals of Engineering Examination is a national examination that is required for obtaining a Professional Engineering license and is normally taken by senior engineering students. Although not mandatory, we recommend our students to take this examination. In the last 5 year, 95% of our students (blue) who took this examination passed it compared to 75% nationally (red), as shown in the chart below.
